Agent for Empire Mower.

Commercial Row, Reno, Nevada.

THE JOURNAL is reliably informed that the Democrats of Churchill county will not make any legislative nominations this year. They neither believe in the possibility of electing the candidates favorable to the action of Senator J. P. Jones nor in the advisability of doing so if they possessed the power. They recognize, in the place, the fact that our senior Senator has done more for the principal industry of the State than could have been accomplished by any other person of either party might have occupied his seat in the lower branch of our National Congress. The view of this fact they wisely refrain from any manifestation which might be construed as an attempt to supplant a representative, whose usefulness in the past furnishes abundant proof that his removal at present crisis, would be the most disastrous blow that could possibly be inflicted upon the people of Nevada upon the bi-millennial cause. The wisdom of the Churchill majority might well and profitably be illustrated by their political brethren throughout the State, and we are confident it would, be if left to the rank and file of the party in the different counties from California to the Utah lines. There is a shadow of doubt in our mind, but John P. Jones, if the Senatorship was directly to the voice of the people, would receive the support of the greater and a portion of the Democrats as well as almost unanimous vote of the Republican party in the State, as against any candidate of either party that might be advanced against him. Of course his election at the next Legislature is an assured fact, that no one possessing ordinary intelligence will for a moment question. Why then make his election unanimous at St. Paul, as it will be virtually in the joint convention at the next Legislature? No can be derived, nor any point gained the Democratic cause by a show of opposition, which is not really meant, and which must inevitably result in most injurious and overwhelming defeat. Better accept the situation gracefully and at the same time pay a merited compliment to an able and faithful public servant by following the example of Churchill county and making no nominations which might be construed as representing an opposition which does not in reality exist, and which, did, would scarcely be felt in the recess current which will carry for the fourth time the great advocate of bi-metal to the seat which he has so long and fully occupied in the United States Senate.

THE REASON.

The Appeal copies the JOURNAL's article regarding the testing of the constitutionality of the appointment or election of a fourth District Judge in the State and says:

Under the circumstances the question naturally arises, why did not the Court decide the question of Wells' right to hold office of the District Judge of the Third District? The Court was called on to decide this question and declined. It is not seen that a Court has that right. Has the people of Nevada would like an explanation.

The reason, doubtless, was that the matter did not come up in such a shape as to involve anything except the validity of the official proceeding of the application for a writ of prohibition. That being decided the Court not to be the proper way to the right of Judge Wells to hold the office, the case was dismissed. The Judges could hardly have been expected to go outside of the record to render a decision or to venture one in a case which they decided improperly before the Court. A test case, upon quo warranto proceeding, should, however, be brought without delay, and the matter decided before further complications result. If four District Judges should be elected this Fall, and it should afterward be decided that the law entitles the State but three, the probability is that all of the Judgeships would be declared vacant, and the legal number would have to be made by appointment by the Governor.

THE ORIGINAL PACKAGE BILL.

This bill which has passed both houses of Congress is designed to relieve prohibition States from the effects of the decision of the Supreme Court, but an amendment to the Senate bill in the House sends the matter to a Conference Committee. The amendment provides that when an article of commerce is imported into a State and offered for sale, it shall become subject to the laws of that State. A State is forbidden to discriminate against the products of other States or in favor of its own products. The effect of this will be that spirits manufactured within a State will be subject to the same control as spirits manufactured in another State. Under the present Court decision the State might prohibit the sale of liquors manufactured within its limits, but could not prohibit the sale of spirits manufactured in another State when offered in the original package. It seems to us that the prospect now is that the prohibition question will be placed in Congress practically where the Supreme Court found it.

Uaplin, Minister of Agriculture, Wednesday delivered an address at the Lincoln Agricultural Hall in London. He said the great rise in prices of agricultural products was due to the advance of the price of silver, consequent on the passage of the Bland bill by the United States Congress.

CHAUTAUQUA.

A SUMMER SCHOOL ON THE SHORE OF LAKE TAHOE IN AUGUST.

Magnificent Location for a Permanent Assembly Ground.

Under the above heading the San Francisco Bulletin, of July 20th, gives the following synopsis of Nevada's great educational movement. August 11th to the 20th is the date of the assembly:

"The most recent move in the direction of extension is the organization of a new assembly in Nevada having special attractions which bid fair to interest people in all parts of California and there are some enthusiastic lovers of the mountains who believe that in a few years the new assembly will attract nearly as large a concourse of people as that at Pacific Grove. Certainly no grander location could be selected than the one chosen beside the world-famous lake of the Sierra Nevada.

LAKE TAHOE ASSEMBLY.

"This new organization will be known as the Lake Tahoe Assembly, and already active preparations have been made for the meetings. A charming site has been selected by the trustees near the shore of the beautiful mountain lake, in Douglas county a short distance from Glenbrook, nearly opposite Tahoe City, which has Postoffice facilities and ample hotel accommodations and is one of the stopping places of the little steamer, which makes daily visits from Tahoe City to various resorts around the lake. The topography of the section selected is described by Rev. T. E. Sisson, in a recent letter, as follows:

"Two great natural amphitheatres and three terraces make proper divisions of the grounds. The elevation above the terraces culminates in the 'Lookout' some 300 feet above the lake. From this point one obtains a commanding view of Tahoe (the great water). A crag, several hundred feet high, completes one arm of the amphitheatre. This is called Shakespeare Rock, from the fact that the elements have so serrated the cliffs as to delineate a distinct profile of the great poet. Lake Tahoe is called the 'Gem of the Sierras.' None but those who have seen this great body of water nestled among the mountains, could be persuaded of Tahoe's surrounding beauties and sunset wonders. Twenty-five miles in length, ten miles in average width, of great depth, it has an altitude of 6,200 feet. It is completely surrounded by mountain peaks of heights varying up to 5,000 feet above the lake."

"Extensive camping facilities will be provided, wood and water is abundant, provisions can be procured at the village, and every endeavor will be made to provide an economical and enjoyable outing at the minimum expense, as it is a well recognized fact that the majority of Chautauquans are people of limited means. Rev. T. E. Sisson, of Mason Valley, Nev., is Secretary of the Lake Tahoe Assembly.

EDUCATIONAL FEATURES OF THE TAHOE MEETING.

The Assembly will convene at 8 o'clock on the evening of Monday, August 11th, when Bishop J. H. Vincent, who will be in Nevada, attending the Methodist Conference, will be present and deliver the inaugural address. Bishop Vincent will remain Tuesday and Wednesday, delivering lectures both days. Rev. Dr. Hirst, of the University of the Pacific, who is now at Long Beach, with the Chautauquans, will be Superintendent of Instruction, besides lecturing a number of times. Rev. Selah W. Brown, who delighted Pacific Grove audiences recently, will lecture. Rev. W. A. Quigley, President of the Baker University, Kansas, will conduct the School of Languages and deliver several lectures. Professor C. L. Logan will preside over the class in history. Rev. E. W. Vandewater will manage the Itinerant Club, besides addressing the assembly. Mrs. Mary H. Field will speak of 'The Roman Matron' and the closing exercises will occur on Wednesday, August 20th.

"Considering that this is the first year of the Tahoe Assembly, the foregoing programme is a good one. In time the other departments will be supplied, and the second year probably a series of events equal to those at Pacific Grove will be presented."

The list of lecturers named above has already been increased by the addition of the following names: Rev. H. H. Rice, Prof. Prichy, Miss Lucy Washburn and Mrs. Sophia W. Knight. Programmes of exercises, terms etc., will be sent upon application to the Secretary.

The latest saying accredited to O. P. Huntington, says the Truckee Republican, is that he is a Republican and favors no Democrat for U. S. Senator. As there is no Republican candidate for that position excepting Mr. Stanford, it must be taken that he favors that gentleman. Huntington thus "gives himself dead away," and proves by his own words that his pronounced antipathy for his partner was "only for show."

Among the recent rumors is one to the effect that Senator Stanford will not seek re-election, and that W. H. Miller, the land agent of the railroad company will be brought forward for the high office. Miller, it is said, would be Mr. Huntington's choice for the Senatorship, and at the same time not offensive to Stanford, remarks the Oakland Times.

Lodi Mining District Coming to the Front.

A syndicate of Brooklynites, says the Austin Revere, have purchased the Silver King and Fabius mines in Brooklyn canyon Lodi District and propose to put on a force of men within the next thirty days, on both of the above mentioned mines. They will erect reduction works before Fall of sufficient capacity to reduce thirty tons of ore daily. They intend, we understand, to erect furnaces to roast the ore, but have not decided as yet what kind. Parties are now at the mine getting samples of the ore in order to make the test, so as to be satisfied which will be the proper method to use. The Brooklynites are taking the proper course. They are said to have lots of money behind them and propose to work the property systematically. The Superintendent is a practical miner and a thorough mill man also. He does not propose to let any ore go out of the canyon for reduction. This is the proper way to proceed, there is nothing in any mining camp if you have to depend on shipping ores for its existence.

Another Runaway.

About sundown last night as Will Cooksey got out of his cart near the Willand brewery the horse started, and Will catching the lines attempted to stop him. The animal, however, seemed determined to have a run and he started off at considerable speed, soon gaining such headway that he broke loose and continued his flight across the track at a terrific pace and down West street until he reached the corner of Second when the cart collided with an electric light pole, smashing the vehicle and detaching it from the shafts, with which the horse tore down Second street, narrowly escaping collision with a number of carriages in his mad career. He continued on until he reached the V. & T. railroad bridge, where, in attempting to cross, he was stopped. The animal was uninjured with the exception of a few bruises, and the wrecked cart comprised the sum total of the damages.

Prosperous Truckee.

The Nevada Herald has the following: Professor T. B. Gray and William Cole, who have just returned from Truckee think it the liveliest town of its size in California. Business is brisk and everything is flourishing. Truckee has long been known as the best hotel town on the line of the railroad, and it has three of the finest hotel buildings in the interior. Whitney's new hotel is a daisy. It is four stories high, elegantly furnished and well kept. It was put up in three months. The Sheritt House is another fine building and is always crowded. The Truckee Hotel, kept by Stewart McKay, has always been a popular resort for tourists and there is never a vacant bed in it. Guests are treated in such a manner that they always patronize the house when in Truckee.

There are no more enterprising business men anywhere than in Truckee. The ice business, the lumber trade, and the large factory in which all kinds of furniture, boxes, etc., are made, all give employment to a large number of men, and the town is therefore always lively and prosperous. Truckee is the best town in the county today.

Forest Fires.

Fires are reported in the woods in the Eagle Lake country, says the Lassen Advocate, and an occasional puff of smoke may be seen rising to the south and west of town, indicating that the work of the vandals has begun. We had hoped that the wholesale and wanton destruction of young timber last year would not be repeated for years to come, but it seems we are not to escape the infliction this year at least. It would be the baldest kind of affectation to attribute these forest fires to accident or carelessness. They are the work of men who are aware of the criminality of their acts, yet defy the consequences. Some of these days, perhaps, an example will be made of some of them, that will teach others of their ilk to respect the laws of the land.

Betrayed by Their Friends.

Particulars of the recent killing of the Apache convict, Pashlatah, and the capture of Curley, a confederate, have been obtained from an official source. Three Indians who were in the employ of the military authorities met three of the outlaws and gained their confidence. The whole party camped together, and in the evening the outlaws were attacked, and Pashlatah was killed. It is thought that another one named Sayes was wounded, but he and Curley escaped. Troops were sent out to take up the trail, and Curley gave himself up and was taken to San Carlos. The hunt for Sayes still continues. Pashlatah and Sayes were among the convicts who killed Sheriff Reynolds last November.

A Runaway.

The two-horse team of Joseph Capurro, a rancher, got the best of their driver yesterday morning on Commercial Row and ran across the railway track and continued their course until finally they brought up near Luke's stable. When the vehicle struck the track Mr. Capurro was thrown out, and experienced from the fall a severe cut near the right eye and some bruises on one of his shoulders. One of the wheels of the wagon was smashed to atoms, but the horses were not injured. Dr. Mallen, who is attending Capurro says the injuries, although severe, are not dangerous.

Deceived by the Mormons.

Eight Mormons, who arrived in San Francisco Wednesday from Salt Lake City in a destitute condition, will sail for Honolulu on the steamer Mariposa to-day. They are natives of Hawaii, and were induced to leave their island homes by Mormon Elders. When they arrived at Salt Lake City the Mormons deserted them, and they have had a hard-mouth existence ever since.

SHE DOUBLED UP THE MAYOR.

An Indiana Woman Conquers an Army of City Officials on the Island.

"There has been a marvelous change in the treatment of insane patients in our hospitals within the last five years," said H. H. Porter, the president of the board of commissioners of charities and correction, the other day. "Not long ago every patient was considered a candidate for the straitjacket or the cuffs if he was at all violent. Now we seldom have occasion to use either one. The change has come as a result of our increased facilities and accommodations. We are enabled to employ better nurses and caretakers, and we find that persuasion is far more effective than force."

"I remember a rather funny experience I had when Mayor Hewitt was in office. You know the old gentleman was very anxious to do the right thing in regard to appropriations for all the city institutions, and in order to understand the needs of each he made remarkably thorough and careful investigations. He sent word to us one day that he would inspect the insane asylums on the island the next day, so all the commissioners made arrangements to accompany him. When the time came there was just an army of us, for beside the mayor and the commissioners every paper in the city sent its representative."

"We got along all right on the island until we came to the 'lodge' where the most dangerous patients were kept. Here Mr. Hewitt stopped and said, 'I don't think we had better go in there—all of us—for we will probably excite the patients.' But none of the commissioners or reporters wanted to be left behind, so we all went in, the reporters bringing up the rear."

"There was a big German woman, 83 years old, confined there, with whom we had had considerable trouble. I thought she was safe out of the way, but when we opened the doors there she was straight before us. The crowd nettled her for a moment, and then with a yell she rushed forward. There was a grand rush—the reporters turned tail and ran as fast as they could for the fence, while the commissioners streaked off in different directions, and poor Mayor Hewitt, who could not get out of the way, was left facing the wild woman."

"He did not stand long, however, for in less time than I can tell it she hit him in the pit of his stomach and doubled him up on the floor, while his glasses flew clear across the room. The next instant the keepers had her in charge, and slowly the army of men gathered itself together. While the other commissioners were dusting the mayor off I handed him his glasses, and then he turned and looked at us reproachfully as he said, 'I told you so.'"—New York Tribune.

The June Bug Rampant.

The bug is a very useful insect, but how objectionable it can make itself on occasions was shown by an incident which occurred one night on the Central railroad of New Jersey. The milk train was carrying two passenger coaches behind the milk cars, and as the night was warm the half dozen passengers aboard had the windows all raised. The train had been standing on a side track a few minutes when a swarm of large June bugs, attracted by the car lights, flew in through the windows. In five minutes the seats were nearly covered with the bugs, and they began to crawl around the legs of the passengers and to prove otherwise unpleasantly officious. In five minutes the insects had possession of the two cars and the passengers turned out. The problem which now presented itself was how to get the pests out of the cars before the train started. A fire was suggested, and while the passengers gathered brushwood and kindled a roaring blaze, one of the brakemen went into the cars and put the lights out. The ruse was successful, the bugs deserted the cars, and the passengers went back, shut down the windows and sat in darkness until the train started.—New York Commercial Advertiser.

Before the Flag.

In a certain New York mission is a bright street fellow who, if this incident may be taken as an indication, bids fair to develop the brains and the patriotic sentiment of a good American citizen. A gentleman announced his intention of delivering an address on political reform in the neighborhood of the mission, a particularly disorderly district. He and his friends were informed on good authority that if the speech were made the speaker would be pelted with rotten eggs.

It seemed that the proposed address, which it had been believed, would exert an important influence, must be given up. A small boy, between whom and the speaker a friendship had developed at the mission, solved the difficulty by an ingenious expedient.

"I tell you what to do," said he. "Hang the American flag back of the platform, and you stand before the flag. The roughs won't throw eggs at the Stars and Stripes."—Youth's Companion.

Happy Dispatch of Poultry.

The president of the British pharmaceutical conference is credited with having adopted and recommended the following for the happy dispatch of poultry. A large, wide mouthed, stoppered bottle is kept charged with an ounce of chloroform. When a chicken has received sentence of death it is held firmly under the left arm and its head slipped into the mouth of the bottle. A few deep inspirations follow, and the bird, without a struggle, becomes unconscious. Then holding it by the legs its neck is dislocated by a quick stretch.—Our Dumb Animals.

No Dudes in Africa.

"Do you believe in evolution?" inquired the baboon of the gray ape. "Great oocanoot!" no," was the answer. "Did you ever see anything like that in Africa?" and he pointed to a dude who stood before the cage. "No," said the baboon; "but the species may have deteriorated."—Harper's Bazar.

A Stale Fish Yarn.

A good fish story is told regarding a recent party while at Moonshine. "It was high 12, the sun was darting its rays upon the clouds above them, while the condensed vapor was dropping down, as they angled from the steamer's sides, rocked by the billows of the lake. A sudden jerk upon the line of one of the party told him that business had begun. The guide was standing near, and with a stentorian voice exclaimed: 'Hold him! don't lose him! he is actually a five footer, (meaning the fish). As soon as hooked this monster (with spots) darted for somewhere known only to those dwelling beneath the surface of the lake, and whether he ever arrived there is still clouded in mystery."

"One thing is positive, he reeled off 800 feet of line, tore it from the reel and left the fisherman with only a portion of the tackle. Others in the boat were anxious spectators, and as the line parted company with rod and man they caught him in their arms, gently bore him to the cabin and headed the boat for shore. By good nursing he in a few moments regained consciousness and expressed himself as very grateful to his rescuers for saving him from a cold bath in the waters of this beautiful lake. It is evident that larger boats, stouter lines and more expensive apparatus must be used to handle these monsters of the deep."—Lewiston Journal.

An Enchanted House.

A house in the Avenue de Saxe at Lyons is just now exercising the minds of the more superstitious section of the inhabitants to an extraordinary extent. Every evening large crowds take up a position in front of the building, which they contemplate with curiosity not unmixed with awe, and its tenants are leading anything but a happy life. The house is acquiring rapidly a reputation for being haunted, or, as the people call it, "enchanted," since at intervals the sounds of mysterious rappings and tapings—which at last grow so strong as to cause the very planks and windows to quake and shake—penetrate even to the ears of the outside public.

The police have overhauled the place, peeped into all the cupboards, tried the ceilings and walls and put the furniture into a general state of confusion without arriving at any solution of the mystery, though there was some method in the antics of the "ghost," who treated himself to a spell of rest while the inspector was on the spot. Nothing daunted, however, the police are continuing their efforts actively, and as they are determined to detect the author of this grim joke it is probable that the worthy Lyonsaise will soon be initiated into the mysteries of the maison enchantée.—Paris Letter.

Her Duel with the Doctor.

An extraordinary duel is reported to have taken place in Vienna. A few days ago a girl, aged 19, challenged a young doctor who had offended one of her friends and refused to apologize. He was challenged in the usual way by two seconds, a student and an officer of reserves, and when he ridiculed the idea the girl threatened to horsewhip him publicly.

The challenge was then accepted and a meeting, with seconds and doctors, took place in a hired room in a Viennasuburb. All the rules for a duel with swords were strictly observed. The doctor first acted on the defensive, but was soon obliged to fight in earnest, and left off after the second round with a wound in the left side, which was declared not to be dangerous. The girl, a Croatian educated in South America, is said by the seconds to be the best fencer they ever saw. After wounding her adversary she left the place without casting another look at him.—Wiener Tagblatt.

We Have All Met Them.

The season is now at hand when you are apt to run against those two persistent faddists, the horsey man and the yachting man. If you escape one of them for a day you are certain to fall a victim to the other. The horsey man tells you about his experience. Perhaps he will go so far as to give you a "sure tip" for today. The yachting man, if he owns a boat, describes her rigging for this season and prattles about jibs, center boards, legs, stays, beats to windward and other topics of equal interest to a land lubber. They are rather harmless in their way, these talkative enthusiasts, but they never seem to realize that they may become just a trifle wearisome at times.—New York World.

Garfield's Sons.

James A. Garfield has been spending a few days in this city, having come upon a triple mission. He grows to resemble his father physically, as he is said to do intellectually, more than any of the other children. The resemblance, however, is not so apparent when he is obliged to use his eyes closely, because he has been compelled to wear spectacles. With his brother Harry he has established a law business in Cleveland, and if the clients are all of them men and corporations of such consequence as those whose interests compelled him in part to visit this city the Garfield boys have certainly done amazingly well.—New York Cor. Philadelphia Press.

An An Sable thief went to a widow's barn the other night and milked the widow's cow. Next morning that poor widow found a pocket book containing \$1.17 in the stall and advertised for the loser to come forward, prove property, return the milk and get his cash.

Senator Hearst's Washington house contains seventy rooms. So far \$170,000 has been spent in furnishing it, and this is said to be only a beginning. Thirty years ago the senator occupied an attic room in a Missouri farm house, where he was working for his board.

A monster crab was landed in a net from a wharf in San Diego by L. C. Bragg. The body measured 16 inches across, while the spread of the nippers was 34 inches. The giant crustacean was ornamented with barnacles of five years' growth.

Somewhat Modest.

The Auburn Republican's correspondent at Towle's station says: "There is nothing so charming as modesty. Not long since a young lady refused to enter one of the saw-mills up in the mountains because she had heard they had undressed lumber in there."

Our local silver bears have been getting the best of the bulls for the past few days. The metal dropped half a cent yesterday and several "speculators" made quite respectable killings. The movement will reverse, however, in a short time, when the bulls will have the immortal clutch on the brains.

Appeal: The Senatorial fight in California this year promises to be red hot from the jump, and fought with heavy sacks on both sides. The old time Nevada Senatorial fights will be child's play in comparison.

The story is told of a man, who took the hands of his clock to the maker to have them fixed, because they did not keep proper time. Of course, the clock-maker demanded the works, as is then they lay the trouble. Boils and blotches, pimples and other eruptions of the skin, are the result of a disordered condition of the blood within. If you have these indications, be wise in time, and take Dr. Pierce's Golden Medical Discovery. It puts the liver and kidneys in good working order, purifies the blood, cleanses the system from all impurities, from whatever cause arising, and tones up the functions of the system. "Golden Medical Discovery" checks the frightful inroads of Scrofula, and if taken in time, arrests the march of Consumption of the Lungs (which is Lung Cancer), purifies and enriches the blood, thereby curing all Skin and Scalp Diseases, Ulcers, Sores, Swellings and kindred ailments. It is tonic as well as alterative, or blood-purifier, in its effects, hence it strengthens the system and restores vitality, thereby dispelling all those leaden, tired feelings experienced by the debilitated. Especially has it manifested its potency in curing Tetters, Salt-rheum, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Dropsy, Thick Blood, and Enlarged Glands. "Golden Medical Discovery" is the only blood and lung remedy, sold by druggists, and guaranteed to cure. No return to do all that it is claimed to accomplish, or money paid for it will be refunded. WORLD'S DISPENSARY MEDICAL ASSOCIATION, Manufacturers, Buffalo, N. Y.

BREVITIES.

Bar silver 108½.
The Senate is pegging away at the Tariff bill.

Colorado's population is estimated at 400,000.

H. Frederick, the jeweler, is at Susanville on a business trip.

Warden Frank McCullough returned to Carson yesterday morning.

Mrs. Louis Dean arrived from the west on yesterday morning's train.

Paint your house with the best mixed paints. Sold by Lange & Schmitt.

Mrs. J. E. Stewart left yesterday for the mineral springs between Truckee and Tahoe.

Joseph Ellett, a prominent cattleman of Montana, passed east on No. 3 yesterday morning.

T. R. Hofer, of the Carson Mint, came down last evening and proceeded on to San Francisco.

Go to Lange & Schmitt for garden hose, garden tools, and agate ware. Largest stock in the city.

It is generally believed that the U. S. Judgeship appointment will not be made until after election.

Appeal: It seems to be a general idea all over the State that a Constitutional Convention is in order.

The mercury was up in the upper nineties yesterday. As the lamented Beecher once remarked "It's dogged hot."

Sheriff Barnard, of Elko county, left yesterday morning for Carson with a couple of prisoners for the State Prison.

The Morgan mill will not close down, as reported, intending to work 500 tons of Ophir rock and all the accumulated slums.

Milton Glover and wife, of Carson, came in last night on the V. & T. train and will leave for the Eastern States this morning.

George Stiles, of the Webber Lake Hotel, was in town yesterday. He says his place is crowded with tourists and visitors.

Mrs. Frank Leslie is coming west on a lecturing tour, and will probably give the people of Reno a specimen of her talking abilities.

Attorney Charles Mack, of Virginia City, came down on last night's train and will leave this morning for the eastern part of the State.

A. Abrahams has gone to the Bay, from which place he will proceed to Walla Walla to look after the White House at that flourishing city.

Johnnie Carter, of Carson, received word on Thursday that his wife's father had been burned to death in a forest fire near Nevada City, Cal.

Prof. Bray, Chief Templar of the I. O. G. T., came down from Virginia City by private conveyance yesterday on business connected with the order.

The travel East is very light at present. The western bound trains are carrying nearly double the number of passengers than the eastern bound.

Don't forget the lawn social given by the ladies of Trinity Church Guild this evening. There will be refreshments and a pleasant time generally.

Yesterday morning's passenger train was nearly three hours behind time. The delay was caused by a fire in the snow sheds on the other side of the Summit.

Rev. R. H. Brady, pastor of the M. E. Church, left last evening for San Francisco. He will remain there for a week or two and then start East via the Northern Pacific.

Two brothers of Patrick Crowley arrived at Carson on Wednesday and visited the prisoner at the Penitentiary. They are endeavoring to secure William Woodburn for the defense.

Carp, planted a few years ago are now quite plentiful in the Humboldt near Winnemucca. A couple of fishermen lately caught seventy-seven of them in half a day's angling.

Jesse Grant, son of the late Ulysses S. Grant, is sojourning at Vallejo Sulphur Springs with his family, and has been the recipient of many courtesies from the residents of that vicinity.

The hay crop throughout the county is said to be the heaviest in many years. The dry season last year has about the same effect on the meadow lands that Summer following has on grain lands.

Chris Buckley is worth \$650,000, and has made it all in the last five or six years. Political bossery evidently pays in San Francisco. Some of the Nevada newspapers, we are confident, haven't made that amount of money in the same length of time.

Three tramps were arrested yesterday and charged with vagrancy. They were allowed to depart upon their solemn promise that they would scoot across the State line before the rising of another sun. The recent tramp infux is getting pretty well thinned out, thanks to the hustling tactics of our local officers.

The forty stamps, out of the complement in the Nevada mill, that have been dropping on Hale & Norcross are will be hung up about the first of next week, until the repairs now in progress at the Hale & Norcross shaft are completed. The remaining twenty stamps in the mill will continue dropping on Chollar ore.

Truckee News.

The following items of interest appeared in the Republican: Mrs. Coffin, of Reno, is visiting friends in Truckee this week. The thermometer registered ninety degrees in the shade to-day. It is the hottest day of the season.

The various hotels have quite a large number of Summer boarders, tourists, who make Truckee their headquarters and visit all the points of interest in the vicinity.

This office is in receipt of many letters from below inquiring if small furnished houses can be had in Truckee for the Summer. The writers would like to come up here during the hot months. It is to be regretted that there are not a lot of houses of the kind, for if there were Truckee's population would be increased largely during the Summer and the visitors would spend their money here.

John Conway, alias Emmington, the man who was arrested here for the burglary of Enasco's store at Loyalton on the 7th, and who afterwards escaped from Constable Henderson while being taken to jail, to be recaptured at Marysville, pleaded guilty to burglary in the Superior Court at Downieville and was sentenced to ten years at San Quentin. This, for a time, ride the State of a notorious burglar, one who for years had defied the officers to convict him.

The hot weather is causing the snow on the high mountain peaks to melt rapidly. To the eastward on the Washoe mountains there are only a few scattering patches to be seen, although they are probably bigger than they look to be. On the west, however, the summit is still white and there are drifts probably twenty feet deep. Truckee's Nob still has on its Winter's cap and is liable to wear it until the snow comes again. There is more snow on the high mountains at this time of the year than before known.

A Natural Cave.

A natural cave is claimed to have been discovered near Little Valley, west of Franktown, by persons who were dove shooting, says the Virginia Chronicle. They had no candles with them and could therefore only explore the cave for a short distance from the mouth, but they are of the opinion that it is of vast proportions. Some pieces of rock taken from the roof and sides show that the formation is a trachyte. The persons who discovered the cave will visit the locality next Sunday, equipped for thoroughly exploring it. An old prospector familiar with the locality of the alleged discovery is of the opinion that the party had imbibed freely of Franktown whiskey before reaching Little Valley and wandering into the Water Company's tunnel near the head of the valley, imagined that the tunnel was a natural cave.

Comstock Whisky.

So far as the Enterprise is concerned it would just as soon see the erring brother's name in black type and capital letters. It will teach him to get full in Virginia, where the whisky does not affect him that way.—Enterprise.

Unfortunately for the Enterprise's theory, Comstock whisky was the entire cause of the trouble in the case referred to. The "erring brother" had just arrived from the upper level loaded to the guards with altitudinous bugniece, which so affected his vision that he declared to the Justice that he didn't see the bridge or know that there was one there, when he speeded his animal across it. It moreover required several jolts of Reno booze to bring him around to the repentant mood, which insured his immunity from the usual penalty.

Patented Mines.

We are creditably informed, says the Austin Reveille, that nine-tenths of the mines immediately around Austin are cornered with a government patent and all are laying idle, waiting for a purchaser. This thing of the government patenting the mines is a fraud upon any mining country. It gives parties an opportunity to hold their mines "without doing any work upon them" for years. It would be a good thing if Congress would pass a law taxing patented mines, the same as any other property.

Copper from Water.

The proprietors of the St. Lawrence and Anaconda mines at Butte City, Montana, are experimenting, and with good prospects of success, to extract copper from the waste water in the mine. Over 2,000,000 gallons a day of the impregnated fluid is made to run through a series of troughs filled with scrap iron, which precipitates the copper in sufficient quantity, it is said, to make the hydropathic treatment pay its way.

Bullion Production.

Since the Humboldt Reduction Works started up in the latter part of May on ore from from the Winnemucca mine, says the Silver State, fourteen bars of bullion, weighing from 80 to 100 pounds each, have been shipped. The value of the bullion would have been increased 25 per cent by free coinage, and no person would have been injured by the act, but the Government would not have made so much profit on silver coinage.

Thirty Years Ago.

The first boat to cross the Sierra Nevada was a whaleboat, and it was taken by a man named Walton to Lake Tahoe. He got it there on mules. That was a long time ago, but the Walton mentioned was not the original "Ike," although he was something of a fisherman. So says the Record-Union.

Tanoe had a close call for a disastrous fire last Wednesday. The Sherritt House caught fire from a crack in a chimney, and but for timely discovery and prompt action upon the part of the fire department, a general conflagration would have resulted.

Repairing of fine Watches and Jewelry a specialty, and at LOWEST PRICES. All goods bought at my establishment ENGRAVED FREE of Charge and without any delay.

Fleche Pickings.

Houses are getting in demand, but the exorbitant rent asked deter many from renting.

The Bawden mine it is said is likely to change hands in the near future. It is not known at what figures it is held.

Young mocking birds are plentiful in town the Indians bringing them in and selling them for two bits apiece.

The building and machinery in connection with the quartz mill at the smelter is approaching completion, and we expect soon to hear the drop of the stamps.

R. Suddler, of Eureka, has sublet the contract of carrying the mails between Taylor and this town to A. Jacobson. The contract is for one year, and calls for two trips weekly, the compensation therefor being \$600 per quart.

There is a fine field for some Christian denomination to establish itself permanently in this place. At the present time we are without services of any sect and the only resort for our population is the bar room.

The Southwestern Mining Company, of El Dorado canyon, has paid in over \$300 as a tax on the net amount realized over expense of production during the last quarter. Lincoln county evidently has no mining district that is profitably productive.

We have been informed by one of the railroad contractors that the company contemplates laying track from Milford on the 1st of September at the rate of two miles per day. At this rate of progress Clover valley will be reached by the latter part of October when it is expected that the tunnel work will be completed between there and Dutch Flat.—Record.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw-ly

The Carson Race Track.

The race track, says the Appeal, has been extensively repaired during the past few days, and a better job was never done. It is now in better condition than ever, and horsemen all pronounce it the best they ever trained horses on. It is perfectly smooth and level, and has all the constituents of a fast track.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home"—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, has no other preparation ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadily. Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla. Sold by all druggists. Price six for \$5. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar

Entrance to all trotting and running races to
close with the Secretary at 9 o'clock, P. M., on Wed-
nesday, August 7th, 1890.Entrance to all races in writing, to give sex,
colors and marks or horses. All names and resi-
dence of owner, and in running races colors to be
worn by rider, and any other particulars that will
enable the audience to distinguish the horses in the
race.Write "Entries to races" on outside of envelope
and seal.Entrance fee, 10 per cent of purse—to accompany
entries.In all races five or more to enter and three or
more to start.National Association Rules to govern trotting
but the Board reserves the right to trot heats of
any two classes alternately, if necessary to finish
any day's racing, or to trot a special race between
the heats, or change the order of races advertised
for any day.Unless otherwise ordered by the Board no horse
is qualified to be entered in any District race (6)
months prior to the day of the race, and any entry
by any person of any disqualified horse shall be
held void for the entrance fee contracted, without
right to compete for a purse, and shall be held
liable to penalties prescribed by the National
Association and Rules of the State Agricultural
Society, an expulsion from the Association.If, in the opinion of the Judges, any race can
not be completed on the closing day of the Fair, it
may be continued or declared off at the option of
the Judges.In all races noted above, five or more paid up
entries required to fill and three or more horses
to start, but the Board reserves the right to hold
entries and start a race with a less number and
deduct a proportionate amount of the purse.When less than the required number of starters
appear they may contest for the entrance money,
to be divided as follows: 6 to 5, to the first, and 3 to
the second.The rules of the State Agricultural Society to govern
running races except where conditions named are
otherwise.Any person not intending to start his horse must
notify the Secretary in writing, or before 6
o'clock the evening previous to the day of the race,
of his intention to withdraw the horse, and if
drawn to first and third money only, a horse
wins but one money under any other circumstances.
The attention of all parties interested is, particu-
larly called to the rules of the National Trotting
Association, under provisions of which, except
as otherwise specified, all matters pertaining to
the racing will be conducted.Races begin each day at 1 o'clock P. M. sharp.
J. W. THOMPSON, President.
E. HUSKINSON, Secretary, Quincy.

REMARKS AND CONDITIONS

Nominations and entries to stakes and purses
must be made on the Secretary on or before the 15th
day of August, 1890. Entries for the purses must
be made two days preceding the race, at the regular
time for closing entries as designated by the rules.
Those who have nominated in stakes must name to
the Secretary in writing which they will start the
day before the race, at 2 P. M. Horses entered in
purses can only be drawn by the consent of the
Judges.Entrance to all trotting races will close August
1st, with the Secretary.Five or more to enter, three or more to start in all
trotting races.National Trotting Association Rules to govern
trotting races. Pacific Coast Blood Horse Associa-
tion Rules to govern running races.All trotting and pacing races to be the best three
in five unless otherwise specified, five to enter and
three to start. At the Board reserves the right to
hold a proportionate amount of the purse. Purses to
be divided pro rata. Entrance fee, 10 per cent on
purse, to accompany nomination.National Association Rules to govern trotting, but
the Board reserves the right to trot heats of any
two classes alternately, if necessary to finish any
day's racing, or to trot a special race between heats.
A horse making a walk-over shall be entitled only
to entrance money paid in. When less than the
required number of starters appear, they may con-
test for the entrance money to be divided as follows:
65% to the first, 35% to the second.In divided purses no horse shall receive more
than one money.In all the foregoing stakes the declarations are
void unless accompanied by the money.Please observe that in the above stakes, declara-
tions are permitted for a small forfeit.In all trotting races drivers not declared out by
2 P. M. of the day preceding the race shall be re-
quired to start.Where there is more than one entry by one per-
son in one interest the particular horse they are to
start must be named by 2 P. M. the day preceding
the race. No added money paid for a walk-over
racing colors to be named in entries.In trotting races drivers will be required to wear
caps of distinct colors which must be named in
their entries.Each day's races will commence promptly at 1
o'clock P. M.All entries must be directed to O. H. Stoddard,

LEGAL.

ADMINISTRATRIX NOTICE.

IN THE DISTRICT COURT OF THE COUNTY
of Churchill, State of Nevada. In the matter
of the estate of A. L. Kenyon, deceased.
Catharine Kenyon, the administratrix of the es-
tate of A. L. Kenyon, deceased, having filed her
petition heretofore praying for an order of sale of the
whole of the real estate of said deceased, for the
purpose therein set forth, it is therefore ordered
that all persons interested in the estate of said
deceased, appear before the said court on Monday,
the 4th day of August, 1890, at 10 o'clock in the
forenoon of said day, at the court-room of said
court, at the town of Stillwater, county of Church-
ill, to show cause why an order should not be
granted to said administratrix to sell so much of
the real estate of said deceased as may be deemed
necessary. And that a copy of this order be pub-
lished at least four successive weeks in the NE-
VADA STATE JOURNAL, a newspaper published
daily at Reno, Washoe county, Nevada.

Dated June 27, 1890. R. R. BIGELOW, Judge.

REPUBLICAN
State Convention.

OFFICE OF
REPUBLICAN STATE CENTRAL COMMITTEE
VIRGINIA CITY, NEV., May 30, 1890.
At a meeting of the Republican State Central
Committee of Nevada, held this day, it was ordered
that a

Republican State Convention

—BE HELD AT—

VIRGINIA CITY,

—ON—

Thursday, Sept. 4, 1890

At 2 o'clock P. M., for the purpose of nominating
a full State Ticket, viz:

Member of Congress,
Governor,
Lieutenant Governor,
Judge of the Supreme Court,
Clerk of the Supreme Court,
Secretary of State,
State Controller,
State Treasurer,
Surveyor General,
State Printer,
Superintendent of Public Instruction,
Four Judges of the District Court,
Two Members of Board of Regents of
State University.

Also for the appointment of a
State Central Committee.

The basis of representation of the respective
counties in the said Convention shall be one dele-
gate for each 50 votes, and one for each fraction of
25 votes or over cast for the Harrison and Morton
Electors, aggregating 146 delegates, apportioned as
follows:

Churchill County.....	2
Doughs.....	5
Elko.....	16
Esmeralda.....	8
Harvey.....	14
Humboldt.....	7

Lincoln.....	8
Nye.....	9
Ormsby.....	11
Storey.....	32
Washoe.....	18
White Pine.....	8
Total.....	146

The several Republican County Central Commit-
tees will call a

Primary Election

—Of the People on—

SATURDAY, AUGUST 16, 1890,

For the purpose of electing delegates to the said
State Convention, the Primary Election to be car-
ried out in compliance with the laws of the State
and the instructions of this Committee.

The following test will be required of each and
every voter at the said Primary Elections:
"I am a citizen of this State and will support the
nominees of the Republican party."

The following resolutions were unanim-
ously adopted:

Resolved, That this committee reaffirms the State
and National Republican platform of 1888, includ-
ing the declaration that "the Republican party is
in favor of the use of both gold and silver as
money" and that "condemns all efforts to de-
monetize silver."

Resolved, That the persistent neglect of Secretary
Windom to increase the coinage of silver to the
maximum of four million dollars per month,
compelled with his attempt to influence Con-
gressional legislation so as to perpetuate silver demon-
etization, is a shameless violation of the silver
platform of the National Republican platform, an at-
tack upon the rights and interests of the miners,
farmers and workers of the land, and an act of
party perjury that should call for his retirement
from the councils of an Administration which is
pledged to help and not to hinder the redemption
of silver.

Resolved, That the Republican party of this State
is in favor of federal unlimited coinage of both
gold and silver, that it holds to this principle as a
test of party faith and a test of party allegiance,
that it will permit of no abandonment or modifica-
tion of this doctrine, that it whosoever will prove
recalcitrant to the principle of bimetalism it will re-
main steadfast thereto, and that it invites all
voters in Nevada who favor the repeal of the in-
equ
